INTRODUCTION

IMPORTANT PLEASE READ

Dear Customer,

This release DECCampus offering contains OpenVMS ALPHA AXP and OpenVMS for VAX products which are IMF (Licence Management Facility) compliant. The Product Authorisation Key's (PAK's) which you will need for each of these products are contained in a special PAK directory on the relevant DECCampus discs.

These discs are as follows :

Disk Name	Part No.
DECCampus for VMS	Disc 1 of 2 AG-PLLL-BE
DECCampus for VMS	Disc 2 of 2 AG-PMMML-BE

(The PAK's for OpenVMS ALPHA AXP and OpenVMS for VAX are on both discs.)

The directory names are : [PAKS_OPENVMS_ALPHA] for OpenVMS ALPHA AXP products and [PAKS_VAX_VMS] for OpenVMS FOR VAX products.

Within these directories, the Product Authorization Keys are contained as a .COM file for each product. The filename is the IMF name of the product followed by the .COM extension for both OpenVMS ALPHA AXP and OpenVMS for VAX products.

The .COM file will register and load the licence for each product. For example, for the product "DEC COMPUTER INTEGRATED TELEPHONY SERVER FOR VMS" (listed on Page 18), which has the IMF name of CITSR, there will be a file called CITSR.COM located on either of the DECCampus for VMS discs within the directory [PAKS_VAX_VMS]. To licence this product, type @CITSR. The IMF PAK (Product Authorisation Key) should now be registered.

ULTRIX/RISC and ULTRIX/VAX
The products supplied on the DECCampus disc for ULTRIX have to be licenced before use. The licences for ULTRIX/RISC and ULTRIX/VAX are to be found on the disc listed as follows :
Disk Name Part No.

DECCampus ULTRIX & PAK'S FOR DEC OSF/1 AXP Disc 1 of 1 AG-PMMRI-BE
--

The directories names are as follows:

```
/paks_ultrixrisc
/paks_ultrixvax
```

The licences for DEC OSF/1 are also on the above disc in the directory /paks_osf

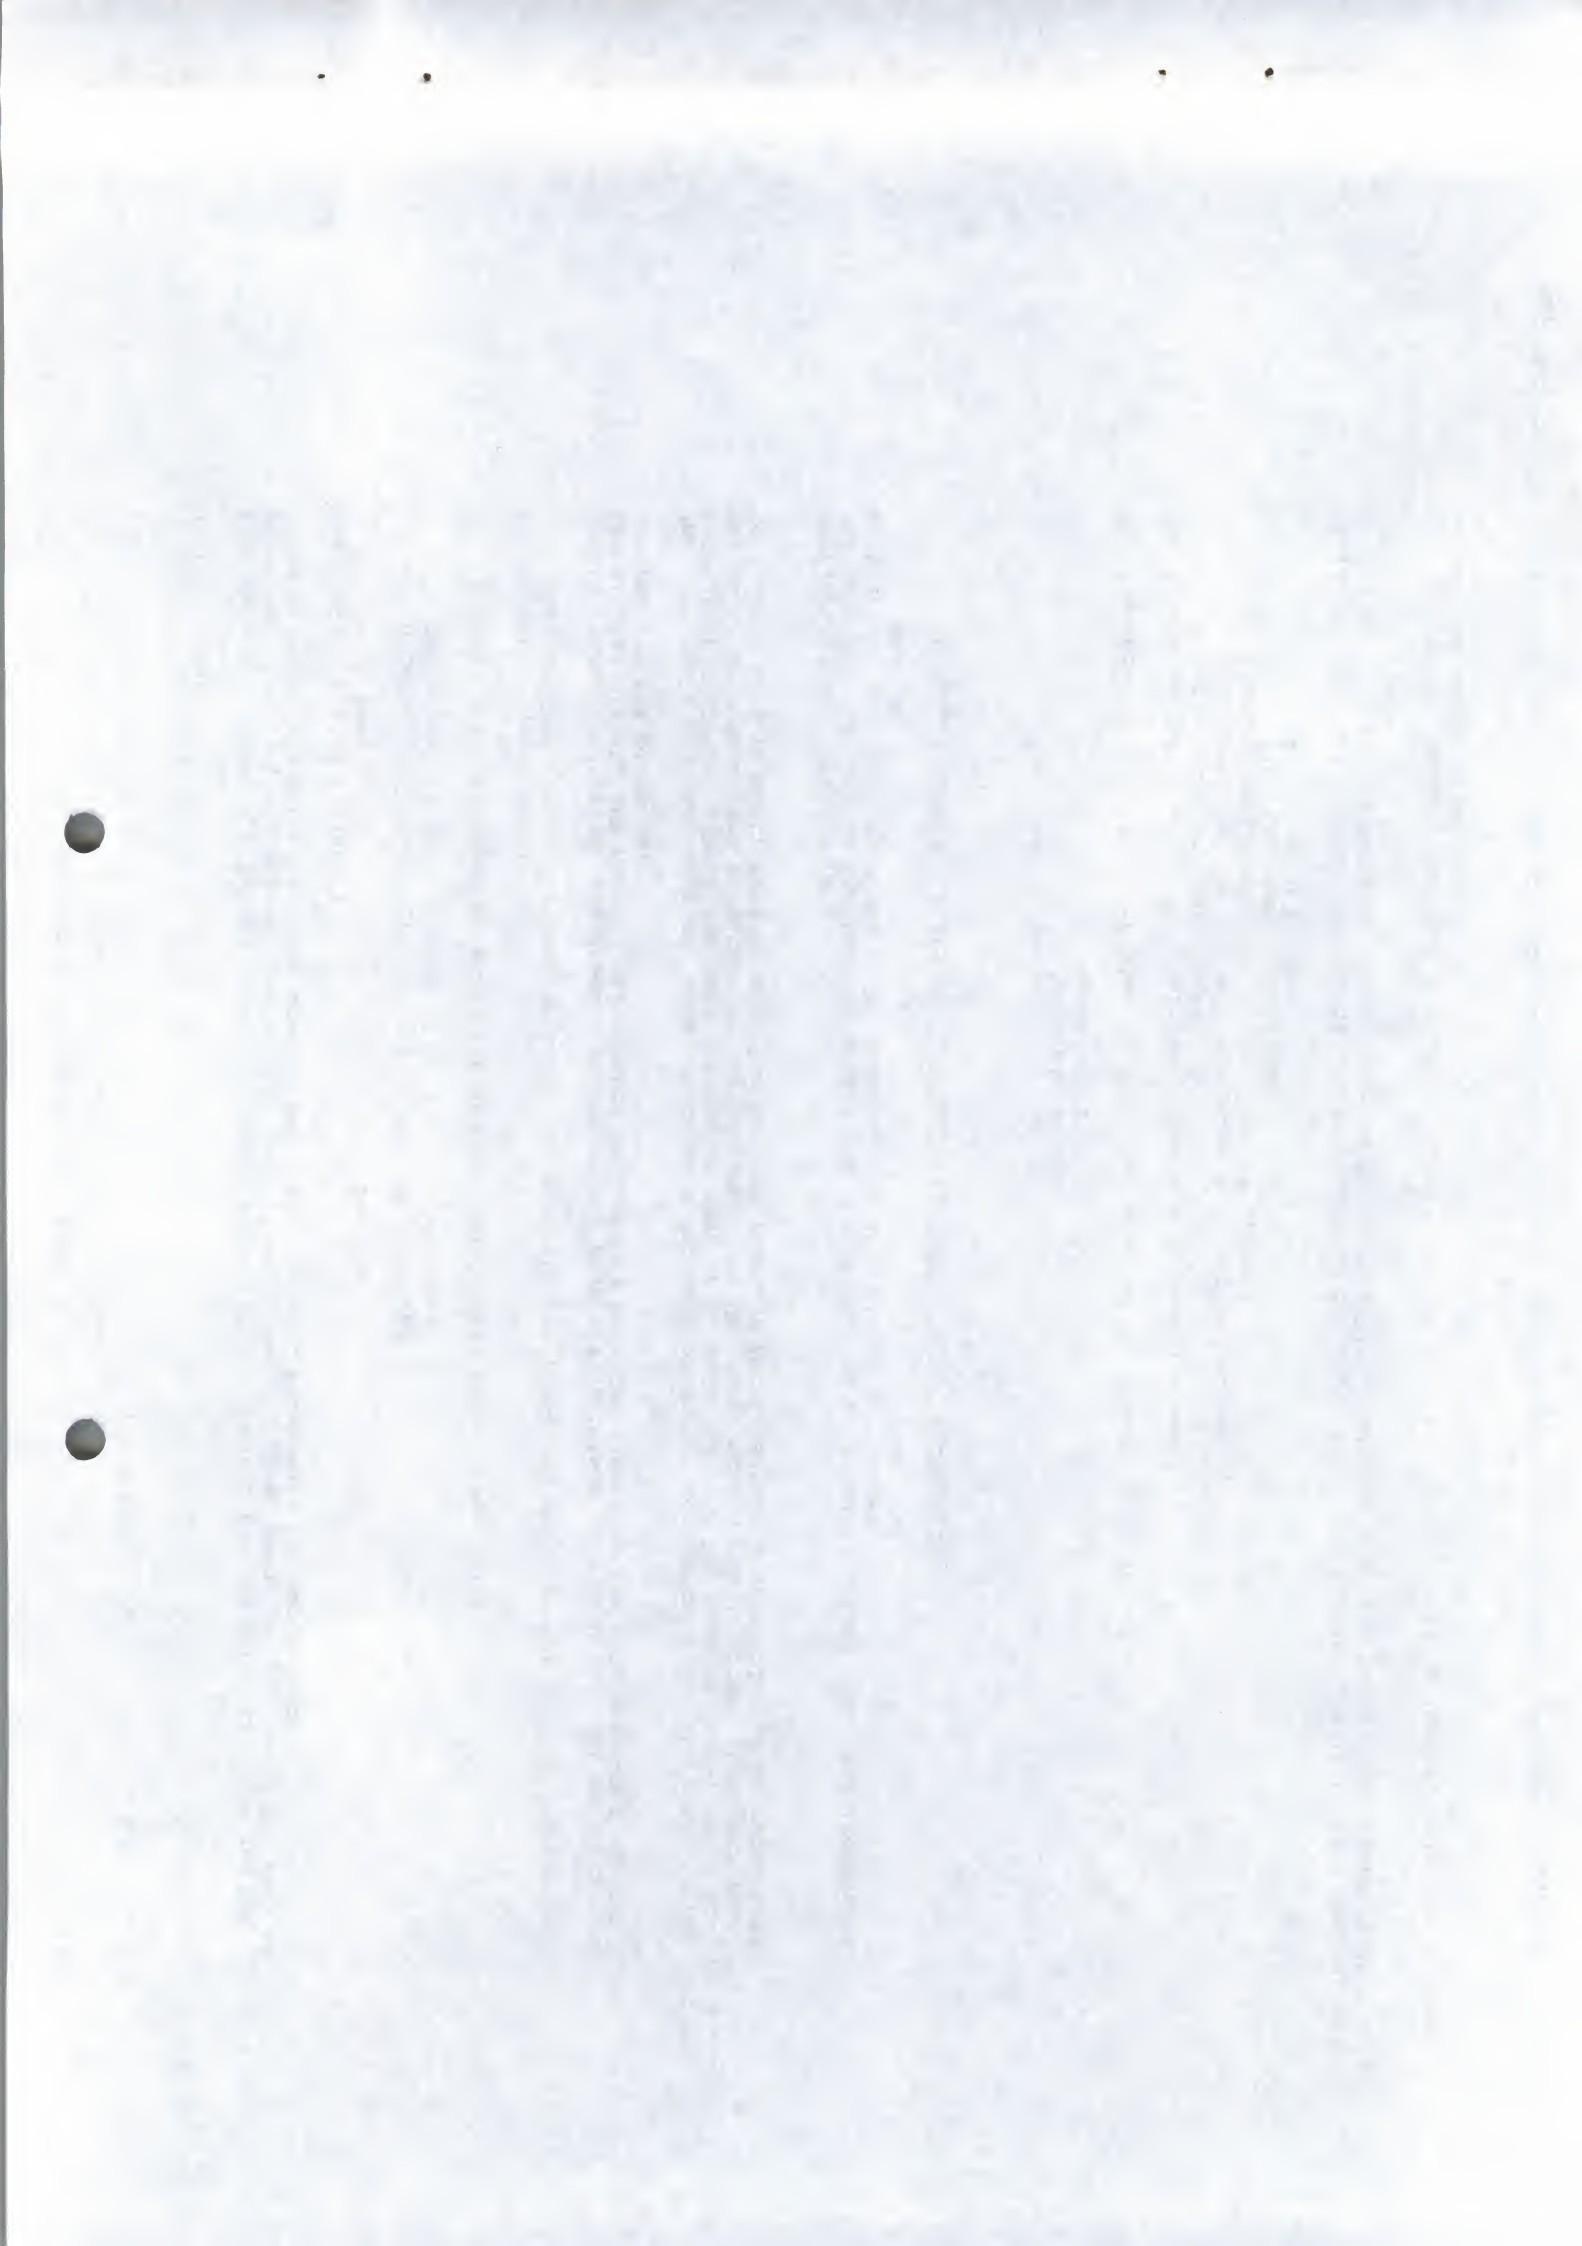

To licence an ULTRIX or DECOSF/1 product, take the following steps :

- * Log as root on your system
- * Copy the files in the PAKS directory to a working directory
- * Licence each product as is required by typing:

```
#lmf register - <filename>
#lmf load 0 lmfilename
```

where the filename is the name of the licence supplied (in lower case) and the lmfilename is the IMF name of product as listed within this document (pages 11 - 14 for ULTRIX/RISC, pages 15 - 16 for ULTRIX/VAX and pages 28 - 29 for DEC OSF/1).

For any product which is not IMF compliant, please proceed with the normal installation procedure as outlined in the Installation Notes.

INTRODUCTION (Continued)

SPECIAL NOTE

For the OpenVMS OPERATING SYSTEMS (VAX and AXP) and the DEC OSF/1 OPERATING SYSTEM (AXP), please note that the Base Licences (UPI=001 for OpenVMS VAX, UPI=MT1 for OpenVMS AXP and UPI=MT4 for OSF/1 AXP) for these products are NOT provided under the DECCampus/STANDARD offering. The customer has to buy the Base Licence bundled with the hardware, or in case of multiple use of operating systems buy the secondary base licence(s) for other platforms additionally. The DECCampus/50 offering applies.

All operating systems, with the exception of ULTRIX, are supported for unlimited users under DECCampus. In the case of the ULTRIX OPERATING SYSTEM (RISC) listed on page 14 and the ULTRIX OPERATING SYSTEM (VAX) listed on page 16, both with the LMF Name of ULTRIX, Please note that authorisation to use this product is limited to the number of users initially licenced. Use by a higher number of users than initially licenced requires the purchase of the appropriate User Upgrade Licence.

Please contact your Local Sales Office if you have any queries regarding any of these matters.

PAK NAMES

The pak's for SNA-APPC-LU6.2, KMS11-X.25 & Message-Router-X.400 are contained as the .com files SNA-APPC-LU6.2.COM, KMS11-X.25.COM & MESSAGE-ROUTER-X.400.COM. The reason for these changes is that DCL generates an _ rather than a . when it outputs a file name for these products.

README DIRECTORY

This document is NOT included in the README directory in this release. It will be included again on all future releases.

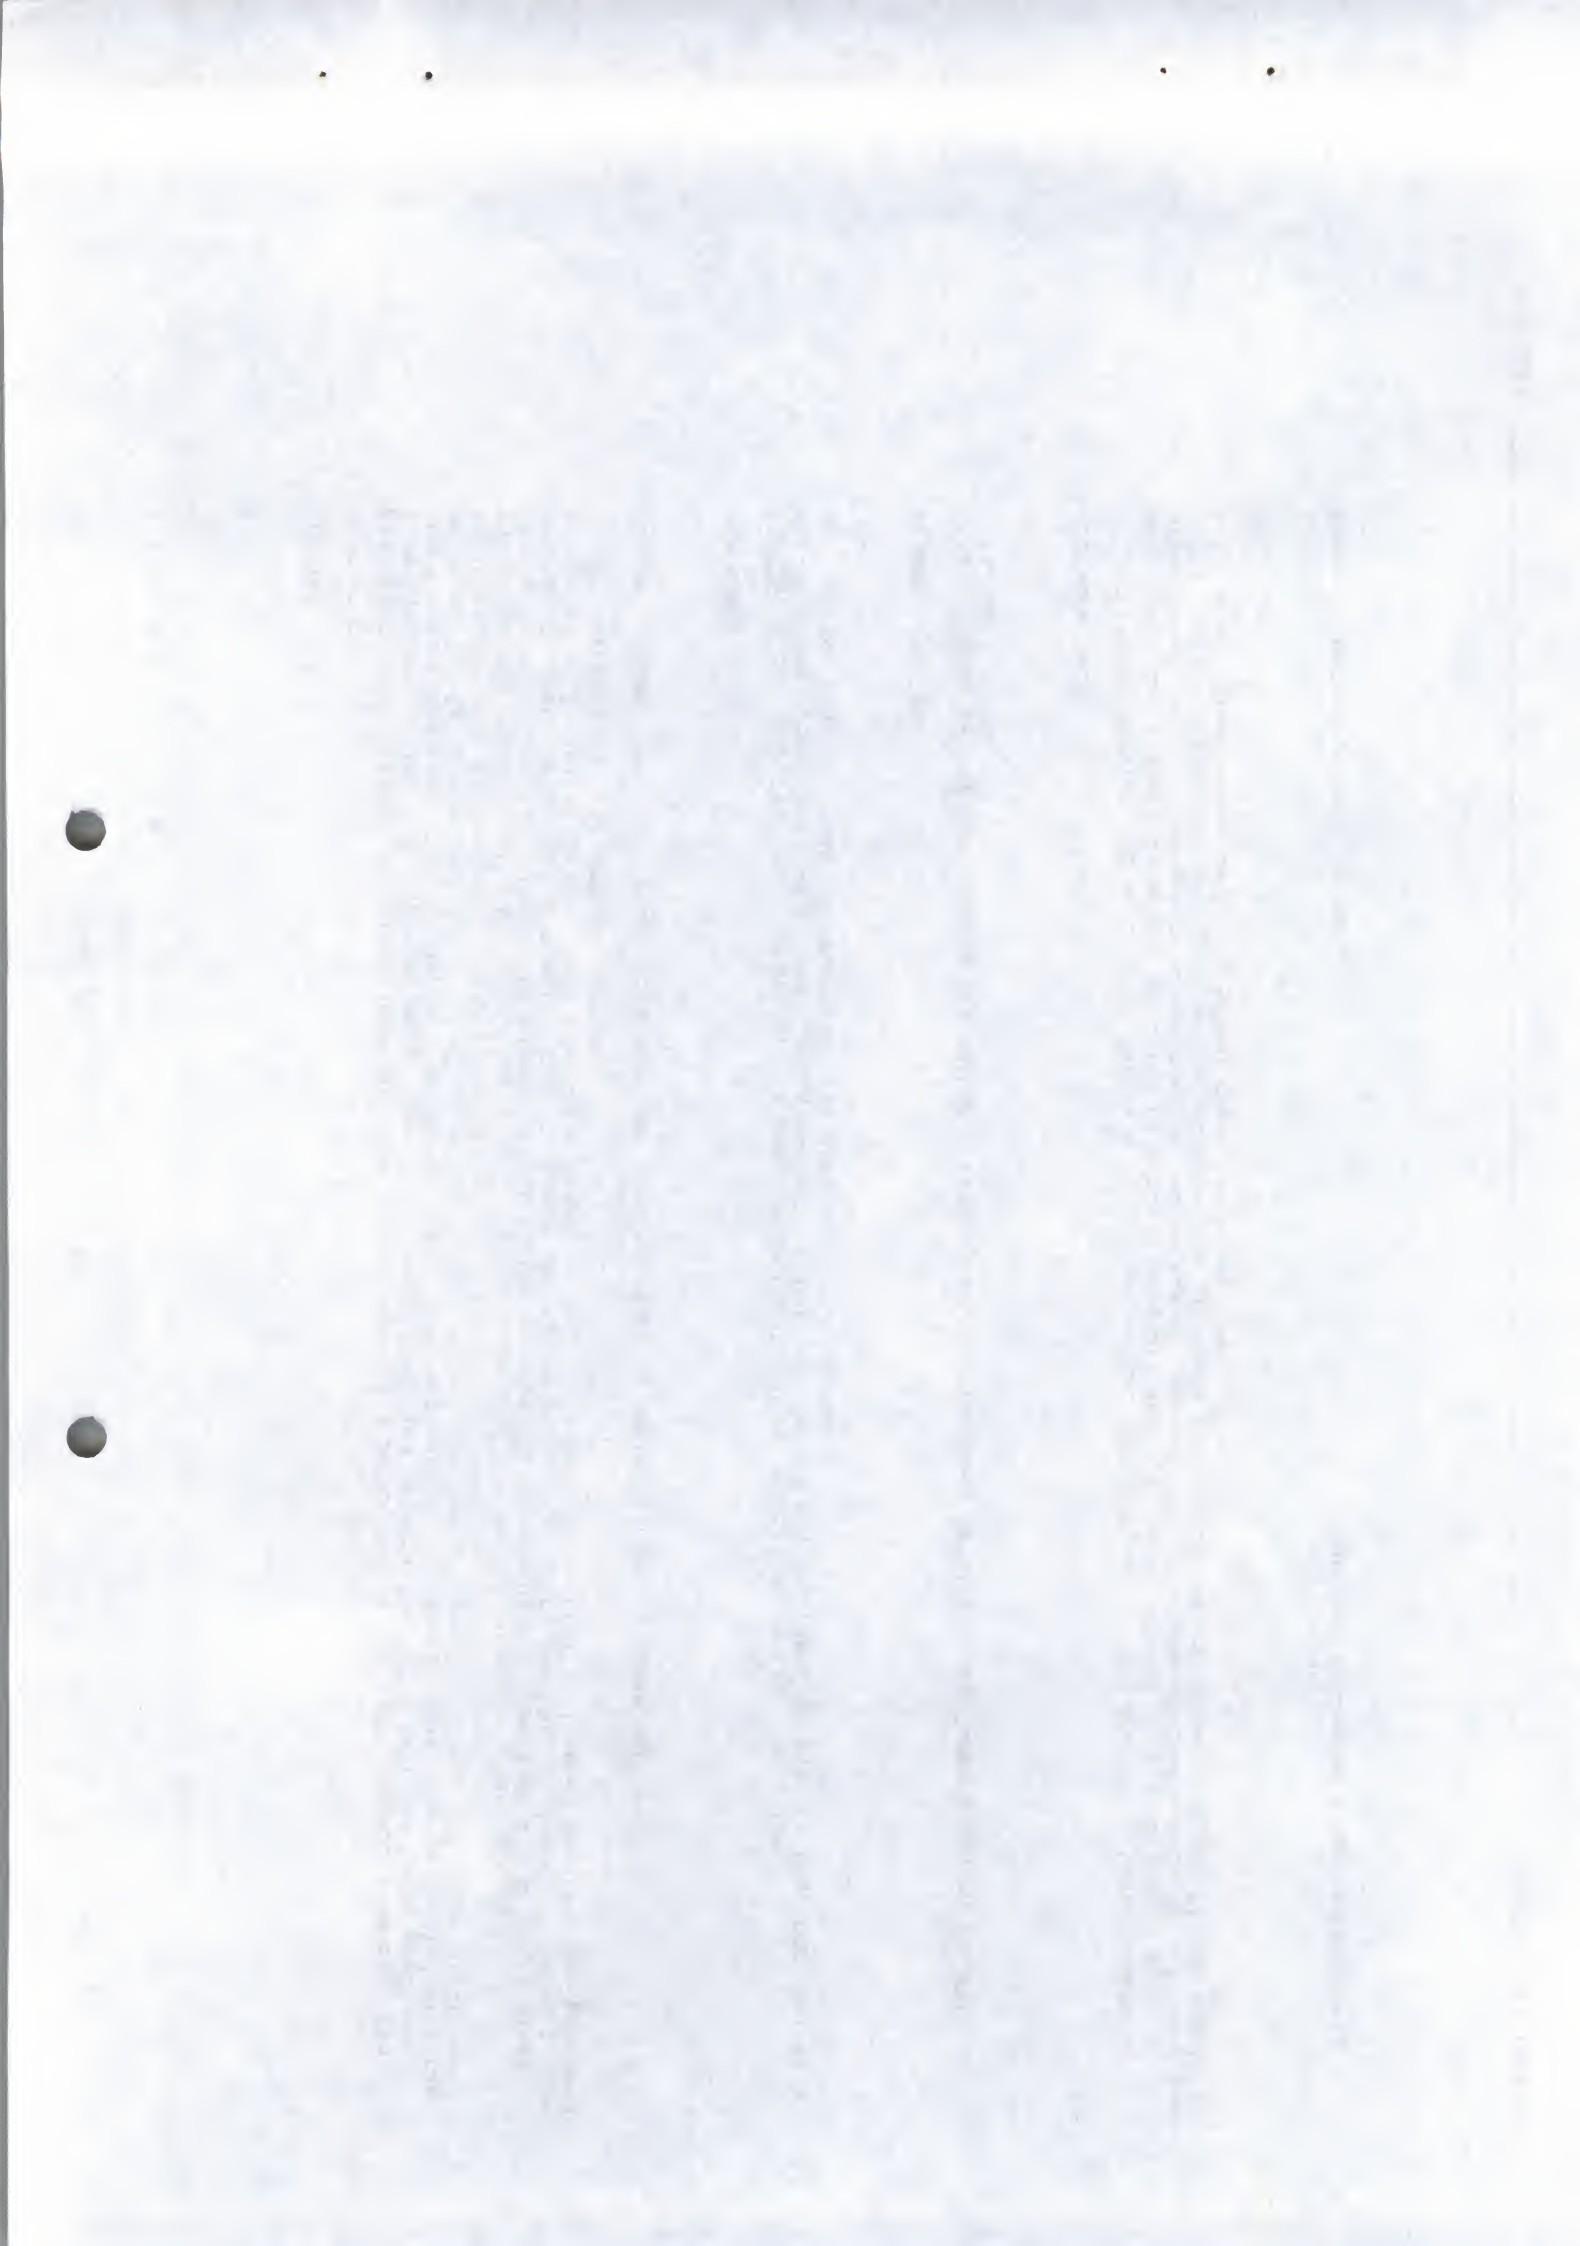

Software Focus

A copy of the OPENVMS VAX edition of Software Focus, an on-line CDROM magazine, is included in this release of DECCampus. There are informative articles on various products which include interactive presentations and hyperlinked text for navigating through different levels of information. DECCampus customers will already have the PAK's supplied with this disc. You may experience some problems installing some components of the Flight Simulator kit, if so, please send mail to pjoconnor@essb.enet.dec.com

Sincerely,

Patrick J O'Connor,
European DECCampus Product Manager.

Gary Cantwell,
European DECCampus Programme Manager.

DECwindows DECnet SNA 3270 Terminal Emulator/Japanese for OpenVMS	VXBJA	2.0A	U	SNADWTEJAA020	11
DECwindows F6680 Terminal Emulator for OpenVMS	05FJA	2.0A	N	FDWTEA020	11
DECwindows H560 Terminal Emulator for OpenVMS	05HJA	2.0A	N	HDWTEA020	11
DECwindows Motif Version 1.2 for OpenVMS	XALAA	1.2	U	DWMOTIF_VAX012	1
DECwindows Motif/Hebrew Version 1.2 for OpenVMS	XDDTA	1.2	U	DECWH\$MOTIF_VAX012	1
Digital Device Access Software for Allen-Bradley	11GAA	1.0	N	ABD010	6
Digital Device Access Software for MODICON	11JAA	1.0	N	MOD010	1
F-PRE for OpenVMS	2TJJA	1.0A	N	FPREA010	11
F6650 Terminal Emulator for OpenVMS	2TKJA	1.0A	N	F6650TEA010	11
H-RJE for OpenVMS	2TEJA	1.0A	N	HRJEAO10	11
H560 Terminal Emulator for OpenVMS	2TGJA	1.0A	N	H560TEA010	11
MEP VT for DEC SNA 3270 Application Services	06CAA	3.0	N	MEPVTO30	6
OpenVMS VAX Operating System	001AA	6.1	U	VMS061	1 (see note 1)
POLYCENTER Accounting Chargeback for OpenVMS	XTXAA	2.1	U	PSAC021	5
POLYCENTER Capacity Planner	GX3AA	2.0	U	ECP020	5
POLYCENTER Performance Advisor for OpenVMS	GX2AA	2.1	U	[PSFA021	5
POLYCENTER Performance Data Collector for OpenVMS	GX1AA	2.1	U	PSDC021	5
POLYCENTER Security Compliance Manager for OpenVMS	GKLAA	2.3	U	INSPECT023	5
POLYCENTER Security Reporting Facility for OpenVMS	GKMAA	2.1	U	DSRF021	5
POLYCENTER Software Distribution	B13AA	3.0	U	RSMSRV030	5
POSTIX for OpenVMS VAX	GXXAA	1.2B	U	POSTIXMUPB012	5
RMS Journaling for OpenVMS VAX	VDVAA	6.1	U	RMSJNL061	1
Reliable Transaction Router Version 2.2 for OpenVMS VAX (client)	XNLAA	2.2	U	RTRVM022	3
Reliable Transaction Router Version 2.2 for OpenVMS VAX (server)	XNKAQ	2.2	U	RTRVM022	3
VAX COBOL for OpenVMS VAX	099AA	5.2	U	COBOL052	2
VAX COBOL/Japanese for OpenVMS VAX	099JA	5.2	U	NCOBOL052	11
VAXcluster Software for OpenVMS VAX	VBRAA	6.1	U	VAXCLU061	1
Volume Shadowing for OpenVMS VAX	AB2AA	6.1	U	VOLSHD061	1

Note 1: The stand-alone disc part number for this is AG-PXKUC-RE, and it's available in the OpenVMS CDDS May kit, QA-YI48A-W8.AH01.

OTHER CHANGES SINCE 101 RELEASE

The paks for the following products have been removed due to Royalty.

PRODUCT NAME

UPILV

STORAGE LIBRARY SYSTEM FOR OPENVMS (CLIENT)	YE8AA
STORAGE LIBRARY SYSTEM FOR OPENVMS	0L7AA
POLYCENTER NetWorker Save and Restore for DEC OSF/1	ZALAA
DEC DCE Security Server	01QA9
TUXEDO [TM] SOFTWARE FOR DEC OSF/1 AXP SYSTEMS	07QAA
XTI/OSI TRANSPORT FOR ULTRIX (RISC)	GHFAA
DEC ODA CDA GATEWAY FOR VMS	YHNAA
DEC OSI APPLICATION DEVELOPER'S TOOLKIT	GZRAA
POLYCENTER SYSTEM WATCHDOG AGENT FOR VMS	MTZAA
VAX-11 RSX COHESIONWORK FOR DEC OSF/1 AXP	382AA
XTI/OSI TRANSPORT FOR ULTRIX (VAX)	0WNAA
	GHGAA

The following products have been retired

DEC VUIT FOR ULTRIX (RISC)	GEG9AA
DSM FOR ULTRIX (RISC)	GFFAA
DEC ELDER FOR OPENVMS VAX	04SJA
CDA CONVERTER LIBRARY-J FOR OPENVMS	0MTJA
VAX PACKETNET SYSTEM INTERFACE	071AA
VAX PACKETNET SYSTEM INTERFACE ACCESS	061AA
VAX WIDE AREA NETWORK DEVICE DRIVERS	VAWAA
VAX FMS/ARABIC (Development & Runtime)	VD8QA & WD7QA (removed)

Changes that have occurred on the OPENVMS VAX CDDS Distribution (reference document AV-PSQEL-TE)

VAX C V3.2 has been removed, this product is planned to update to V4.0 on the July release.
DECndu, (YWWAA) version 2.0 of this product was taken off and is planned to update to version 2.1, DECndu Plus, on the July release.
 DEC GKS-3D Development and Runtime kits were removed and replaced with DEC GKS.
 StorageWorks RAID5 will update to V2.0 on the July release.

DEC OSF/1 AXp Layered Products Special Note

The following layered products, which shipped on the January 1994 Layered Products CD-ROM, support v1.3 of the Operating System and have not yet released new versions to support DEC OSF/1 AXp v2.0.

DEC ACA Services V2.1	
DEC C++ V1.3	
DEComml V2.0	
DECosap/AP V2.0, DECosap/H1 V2.0	
DEC OSI Application Developer's Toolkit V2.0	
DEC SNA Peer Server V1.0	
NAS Client 250 V4.0, NAS Server 300 V4.0	
POLYCENTER Hierarchical Storage Management V1.0A	
POLYCENTER Scheduler Agent V2.1	
TUXEDO V2.0	

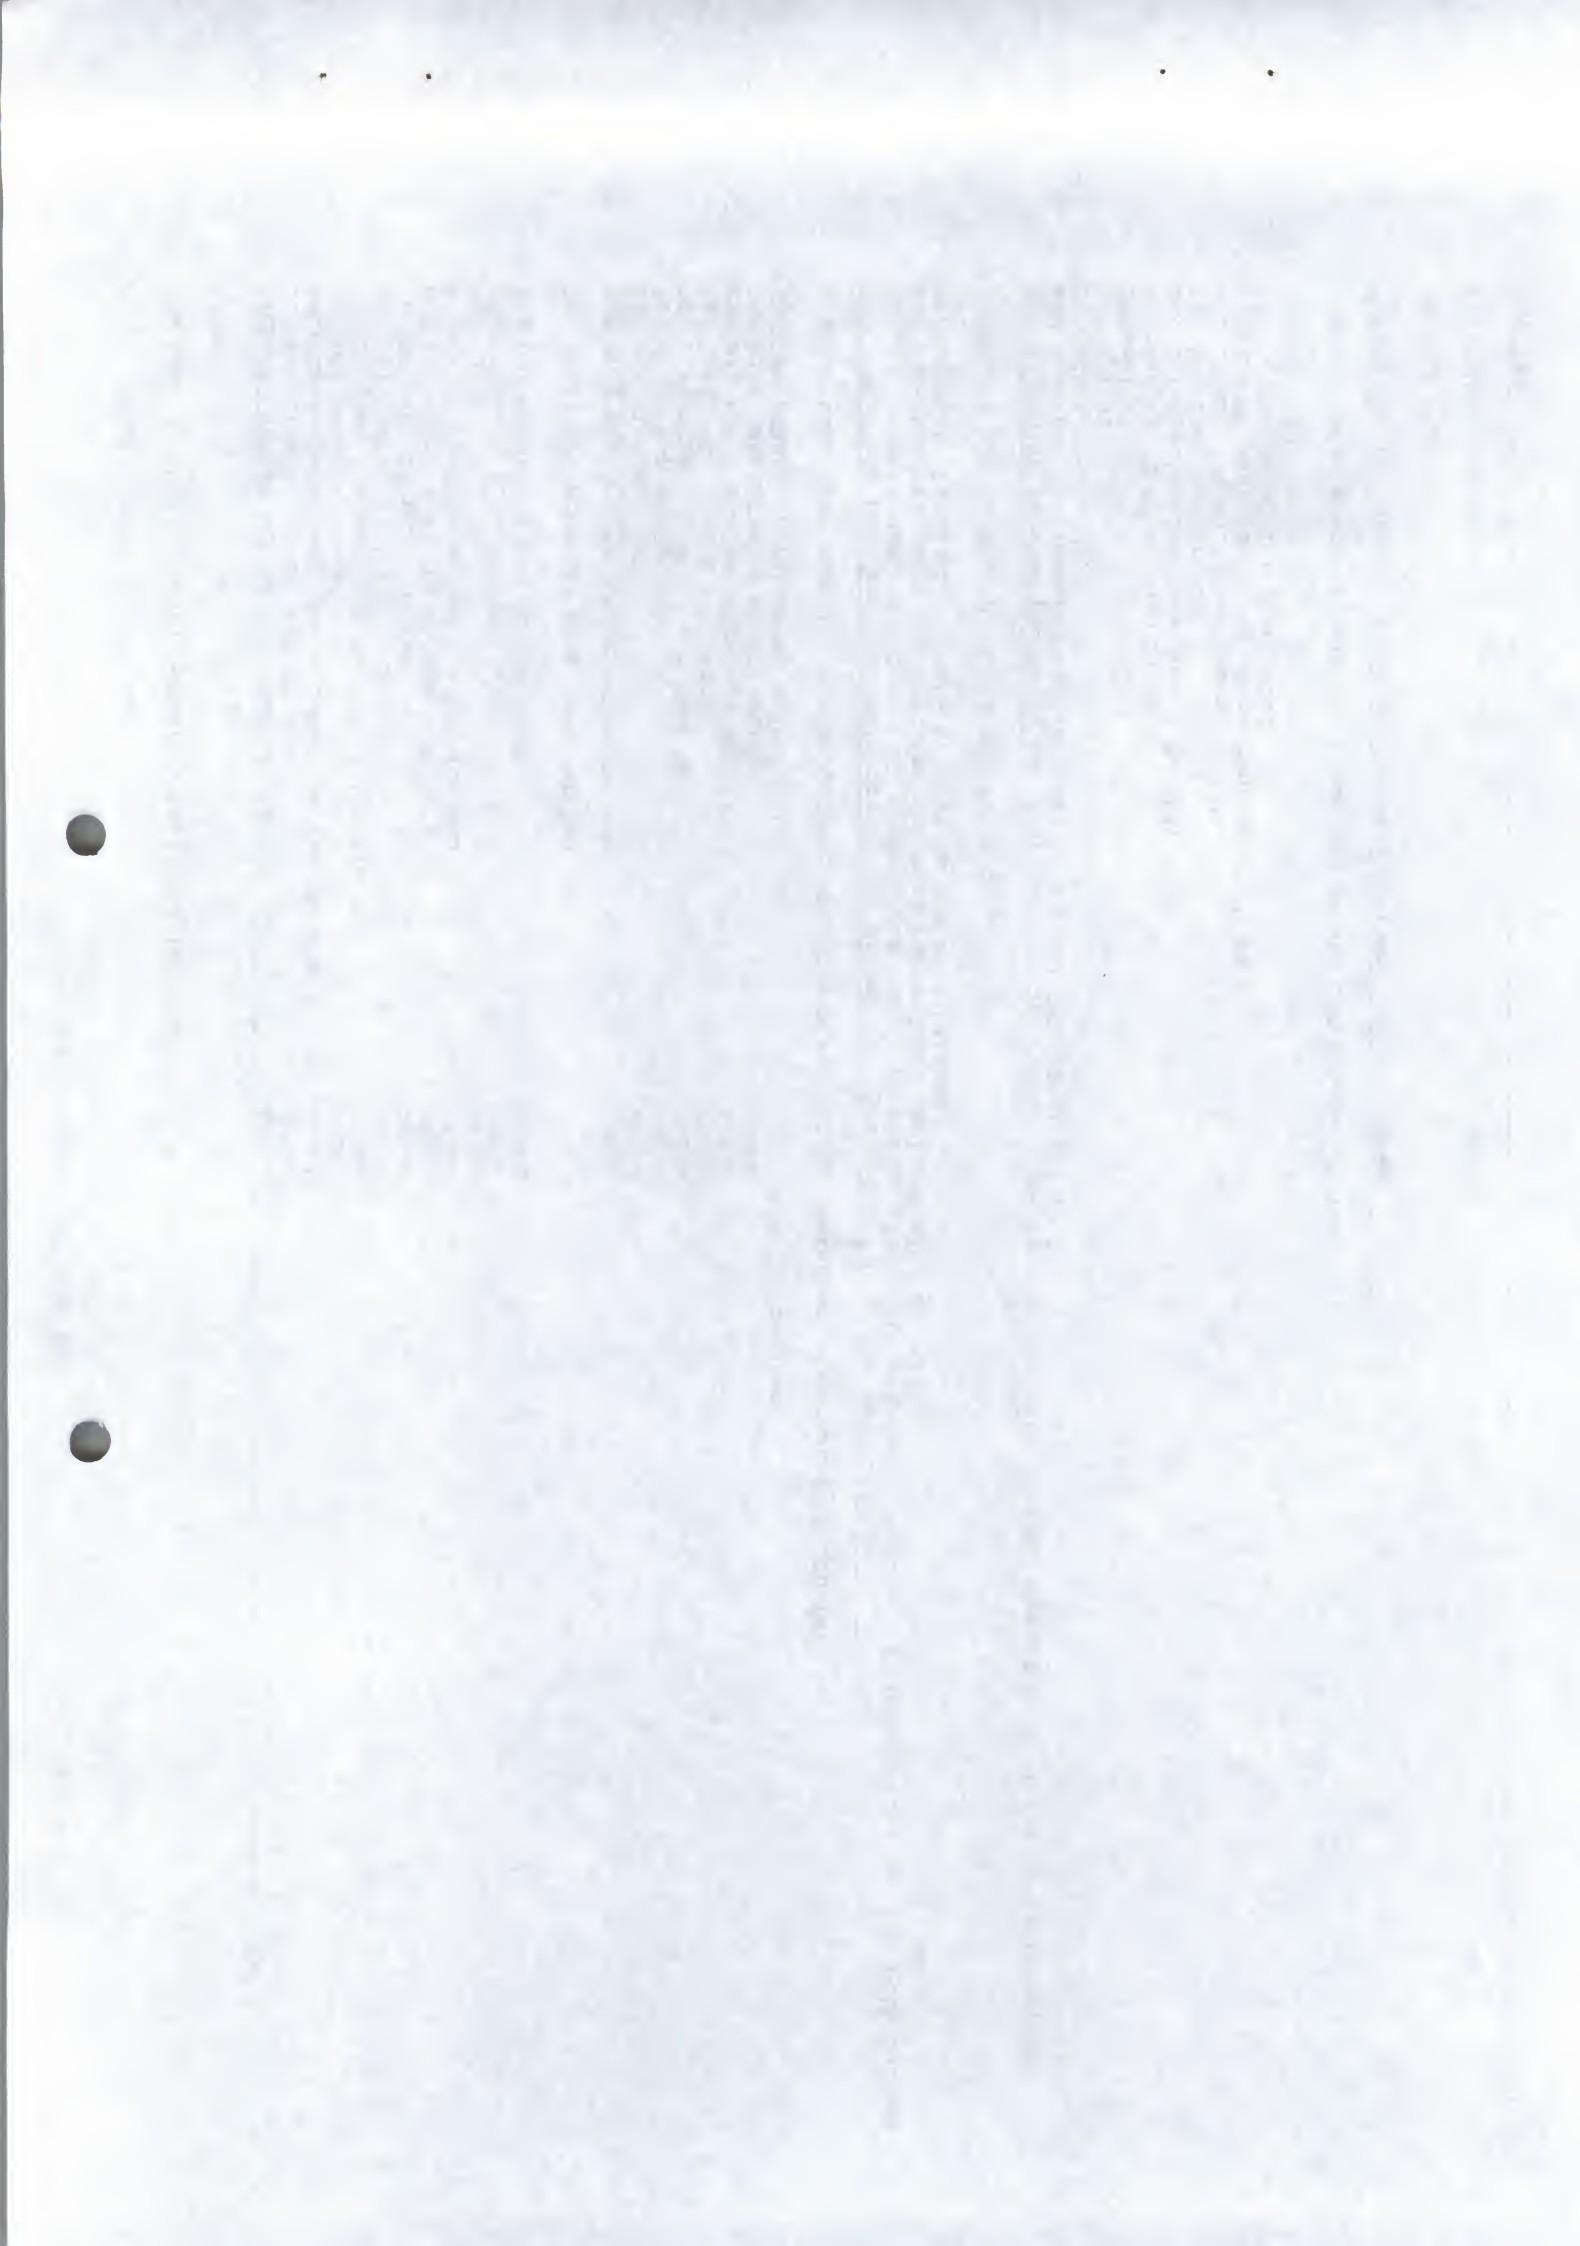

The following products have been restored to the OSF/1 Layered Products

POLYCENTER Performance Solution for UNIX Systems	0WFAA

Note: The disc part numbers represented by 014 & 024 in column 6 are AG-PWKE-XE (disc 1) and AG-Q2KMC-XE (disc 2), the 014 translates to 0= DEC OSF/1 AXP, 1= disc 1, 4-April. Those products with the code 011 in column 6 are not supplied with this release; they're not yet compatible with version 2 of the DEC OSF/1 AXP Operating System. The disc part number for VXT software for OSF/1 AXP is AG-PYKXC-BE (this was supplied as a stand-alone disc on the last release, so is not included this time.)

End of DEC OSF/1 AXP Contents.
